EDUCATIONAL PHILOSOPHY

The Cape Flattery Board of Education is committed to a philosophy of service to children and the community. This objective is to help each child develop as a mature individual and as a contributing member of society. The Board believes that this objective can best be met through the development of a school program with the scope to encompass the intellectual, physical, civic, social, and aesthetic needs of children in a democratic society.

The Board of Education realizes that an effective public school program must be directed toward common needs of all children, but must also consider the unique differences and needs of individual children.

The Board of Education recognizes that the guardianship of public education is a trust and an obligation - that the goals of education are fundamentally the goals of democracy.

The Board of Education believes that its purpose and objectives can best be realized when the program of education is directed through written board policies based on the state statutes and on the needs of the Cape Flattery School District.

Looking Back...

What a struggle! But we finally made it. The class of "65", down to a total of 19 students, must now open the door and face the world as individuals. As a class we have had many ups and downs. Some said that we were a loud and boisterous group; others weren't so polite about it. Anyway, people always knew we were here.

For some reason, we were always being "talked" to by one teacher or another (it seemed that they were always picking on us), but between lectures, we did find a little time to have fun.

As freshmen, we were the last group of students to be initiated into the high school. Although we didn't think so at the time, we will all fondly remember that night in our lives because it meant we belonged.

In our Sophomore year we slowed down a bit, but for some reason they were still saying those things about us. We had a ball anyway--pulling pranks.

As Juniors, our class membership was at a peak of 29. The highlight of the year was our Junior Prom, "Utopia". Everyone worked hard to make this event a success.

During our Senior year we settled down somewhat. We were faced with the task of raising money for our Senior Sneak. We sponsored a bottle drive, a car wash, the Senior Play, and numerous dances. However, on the biggest event of the year, the Senior Ball, we barely broke even. We had decided that we wanted to have a really good band, one that we'd remember, so naturally we had to pay more. We were the only class in the history of our school to hire people to clean up after the Ball.

It wasn't all fun and no work. We scored high in competitive tests sponsored by Clallam and Jefferson counties.

We will all hold fond memories of our high school years. We will also be remembered!
